ence of the Institute of International
Law, comprising the leading jurists of
the world, commenced here today, un-
der the presidency of Lord Reay. The
principal subjects discussed were ar-
bitration treaties, interpretation, inter-
national conventions, the position of
foreigners in the military service of
belligerents and declarations of war
and neutrality.

SITUATION CONTINUES QUIET AT MUKDEN.

Japanese Keep Up Their Advance, but
No Real Fighting as Yet.

Definite Information from Port Arthur Very Meager
and Inconclusive, Though Minor Successes There Are
Reported—Railway Between Dainy and Liao Yang
Hardly Damaged.

(BY THE ASSOCIATED PRESS—P.M.)
[Delayed in Transmission.] With
the exception of a slight skirmish at
Da Pass there were no developments
today.

INCLUDE COAL, COTTON, IRON.
(BY THE ASSOCIATED PRESS—P.M.)
ROME, Sept. 22.—A St. Petersburg
dispatch to a news agency, which is
not confirmed from any source, asserts
that an extraordinary meeting of the
commission to consider the question
of contraband was held yesterday and
it decided that coal, cotton and iron
materials should be declared contraband.

POSSESS ANOTHER PORT.
(BY THE ASSOCIATED PRESS—A.M.)
TOKIO, Sept. 22, 3 p. m.—While offi-
cial confirmation is lacking, it seems
certain that the Japanese possess a
port on another height westward of
Itzehan, which they carried by desper-
ate assault and have since resisted all
attempts at recapture by the Russians.
Both of these heights overlook Port
Arthur, offering excellent
gun positions which materially weak-
en the Russian defense.

RETREAT NOT PREARRANGED.
(BY THE ASSOCIATED PRESS—A.M.)
TOKIO, Sept. 22, 3 p. m.—Gen. Oku
has written an extended report of the
operations preceding the capture of
Liao Yang and in conclusion he ex-
presses the opinion that Gen. Kouropatkin
had determined to hold Liao Yang,
his plan being first to attack
and defeat Gen. Kuroki and then to
assault the Japanese center and left
armies. Oku declares that the stub-
born resistance of the Russians at
Liao Yang proves that their retreat
was not prearranged.

JAPAN ON PAR WITH FRANCE.
(BY THE ASSOCIATED PRESS—A.M.)
ST. PETERSBURG, Sept. 22.—The
Russ and the Novoe Vremya refuse to
accept the low estimate of Japanese
financial and military resources con-
tained in English dispatches. The
Russ is convinced that the Japanese
are able to place as many able-bodied
men in the field as France, whose ca-
pacity, the Russ says, is 2,500,000 men.
The paper admits that Russia is great-
ly handicapped by the distance of her
army from headquarters here and
yours doubling the Siberian railroad.

VAINLY TRY TO TURN FLANK.
(BY THE ASSOCIATED PRESS—A.M.)
ST. PETERSBURG, Sept. 22, 1:30
p. m.—Gen. Kouropatkin telegraphs
under yesterday's date that the Jap-
anese continue their attempts to turn
the Russian left, but without success.
According to the latest information
received by the War Office, Field Mar-
shal Oyama's advance forces are still
thirty miles south and southeast of
Fushan. The War Office does not ex-
pect a battle at Fushan until after a
series of rear guard engagements.

TOOK SOME PRISONERS.
(BY THE ASSOCIATED PRESS—A.M.)
ST. PETERSBURG, Sept. 22.—During
the repulse of the recent Japanese
attack on Da Pass, Gen. Peterhoff
took several prisoners and captured a
quantity of arms and ammunition.
The Russian lost a captain and three
men killed and had forty-five men
wounded.

A detachment under Gen. Renn-
kampff, while reconnoitering, lost two
officers and nine men and had
three officers and twenty-three men
wounded.

RAPIDLY DEVELOPING.
(BY THE ASSOCIATED PRESS—A.M.)
ST. PETERSBURG, Sept. 22, 6 p. m.—The Japanese operations at Muk-
den are rapidly developing. Gen.
Kouropatkin announces that the Jap-
anese army at Bentziaputze is beginning
to advance northward. The outposts
yesterday tried to capture Kaoutou
Pass, commanding the road to Fushan.
The Russians are offering a stubborn
resistance, which is likely to retard
decisive operations. Kouropatkin has
placed strong forces astride the Muk-
den and Fushan roads to Bentziaputze.
The Russians are also holding all the
passes of the Da range, eastward of
Bentziaputze.

A dispatch from Harbin announces
that already a Japanese regiment is
moving farther eastward, but it is
regarded as improbable that the Jap-
anese will move in considerable force
from Dzialantchun along the roads
leading to Mukden, Fushan and Sian-
tsin. Severe fighting is probable
before the Japanese succeed in reach-
ing the Hun River.

There is no further news from Port
Arthur, but the anxiety as to the
fate of its gallant defenders has been
relieved by foreign telegrams received
here announcing the Japanese have
not captured any important positions.

BATTLE HOURLY EXPECTED.
(BY THE ASSOCIATED PRESS—A.M.)
MUKDEN, Sept. 21.—[Delayed.] A
battle is hourly expected to occur in
the vicinity of Fushan, thirty miles
east of here. At present all is quiet.
The weather is turning cold.

ONLY SLIGHT SKIRMISH.

UNDER FALLING PIER.

Bridge Building in Indian Territory
Accompanied by Two Fatalities
and Many Injuries.

(BY THE ASSOCIATED PRESS—P.M.)
VINITA (I. T.) Sept. 22.—The east
pier of a steel toll bridge being erected
over Grand River at Carey Ferry, ten
miles east of Afton, fell at noon, kill-
ing two men, fatally injuring three and
injuring twenty-one others, some of
whom suffered broken limbs. The dead
are:

THOMAS BROWNING.
HENRY BECKER.
The names of the others are not ob-
tainable tonight. All the surgeons in
Grove and Afton were summoned. A
messenger from the scene states that
one hundred men were at work at the
time and the pier collapsed without
warning, owing to faulty construction
of the foundation, not being on bed-
rock and being undermined by water.

The bridge was of steel, on stone
piers, and was to connect the east end
of the Cherokee Nation strip with Vi-
nita and take the place of the ferry
between Afton and Grove.

SAW THE SIGHTS
OF NEW YORK.

THE TIMES EXCURSIONISTS ARE
PLEASANTLY ENTERTAINED.

Brooklyn Eagle's Splendid News-
paper Plant is Inspected and the
Wonders of Luna Park and Dream-
land Daily Noted—Party Leaves for
the National Capitol.

(BY DIRECT WIRE TO THE TIMES.)
NEW YORK, Sept. 22.—[Exclusive
Dispatch.] After four days which
will ever remain memorable in the
minds of the Times excursionists, the
entire party left at midnight by spe-
cial train for Washington, over the
Pennsylvania Railroad. Today, the
Los Angeles party for the most part
were guests of the Brooklyn Eagle.
During the morning, Editor McKelway
gave out a special Los Angeles Times
edition, setting forth in glowing terms
the aggressive policy of the Times
and its editor, Gen. Otis.

The entire morning was spent in in-
specting the Eagle's splendid plant,
one of the finest in the United States.
At noon, the Times party took special
trolley cars, provided by the Eagle,
to Coney Island. The rest of the day
was spent at Luna Park and Dream-
land, two of the most wonderful pleas-
ure parks in America.

SOME OF THE TIMES party find the
weather rather cold for September,
and returned to the city at noon. This
afternoon Mrs. Harrison Gray Otis
visited the Metropolitan Art Museum
as the guest of Mr. and Mrs. J. V.
Van Eaton, spending the entire after-
noon there. Mrs. Otis also visited the
Republican national headquarters,
where she was most cordially wel-
comed by Chairman Cortelyou, Jules
Guthridge, manager of the press bu-
reau, and other department chiefs.

This evening, City Editor Andrews,
Manager McGee of the Santa Fe, J.
Baum and Alan Kelley were enter-
tained at the Berkeley Lyceum The-
ater. The play was "Candida," one of
the great successes of the theatrical
season.

The excursionists have been treated
most hospitably by New York theat-
rical managers. Wednesday evening,
Mr. Booth was the guest of honor at
the New York, where Denman Thomp-
son is playing in "The Old Home-
stead." Tuesday evening, the cour-
tesies of the Manhattan were extend-
ed to Mr. and Mrs. Heffner, Miss Ben-
nett and Miss Speedy by Manager
Harrison Gray Flaks. In the after-
noon, this party were the guests of J.
Van Eaton at the Bronx Zoo.

When the party left tonight, it was
with cheers for New York, as the
greatest place in all the world except
Los Angeles.

Respecting the visit to the Eagle, The
Times edition says:
"The Los Angeles Times excursion
party arrived in Brooklyn today,
seventy-two strong. Conductor Irving
Smith brought them all to the Eagle
Building, where an hour was spent in
inspecting the Brooklyn Eagle's new
newspaper plant. They were shown ev-
ery department, from the art rooms on
the top floor down to the press rooms
in the basement. They passed through
the editorial, repertorial and index de-
partments, on the seventh floor, the
immense composing-room on the
eighth floor, the bookbinding and job
printing departments on the fifth and
sixth floors, the information bureau,
the publication office and the press
rooms.

"The Eagle people extended to the
party a hearty welcome. Special trol-
ley cars, reserved in advance by the
Brooklyn Rapid Transit Company,
were in waiting on the loop in front of
Brooklyn Borough Hall and the statue
of Henry Ward Beecher, and conveyed
the party to Coney Island and Luna
Park, where the day was spent in sight-
seeing and pleasure. Messrs. Thomp-
son and Landy, proprietors of Luna
Park, extended the courtesies of their
entertainments to the western visitors,
and many were the exclamations of
wonder and surprise at the gorgeous
display of temple buildings, immense
circuit arenas and popular illusions
which make up this marvelous seaside
resort."

"After a happy day, the party re-
turned to New York and to their ho-
tel."

COLD NOW INTENSE.

Prof. Wals of Chicago Says
it to Some Weird Form of
Elemental Energy.

General Spread of Frigidity
is Due to Cosmic Distur-
bance, Maybe Sunspots.

Snow Falls in Adirondacks.
Uncut Tobacco Ruined
in Pennsylvania.

(BY DIRECT WIRE TO THE TIMES.)
CHICAGO, Sept. 22.—[Exclusive
Dispatch.] Some weird form of
energy which no human sense has
yet been sufficiently developed to re-
cord may enter into the variations of
elemental conditions responsible for
the unusually cold weather prevalent
all over the continent, according to
Prof. Ferdinand J. Wals of the Chi-
cago Weather Bureau. What this new
energy is like, Prof. Wals says he
does not know and that no one else
does. He thinks that some day per-
haps there will be a race of human
beings with a new organic faculty
so highly developed that they can
"sense" it.

"In my opinion," said Prof. Wals,
"the general spread of the cold is due
to cosmic disturbance with which
scientists are not at all familiar. It
may be that there is variation in the
waves of energy from the sun, and
that the theory of sun spots and dis-
turbances in the sun is correct, though
this theory is much disputed."
"I am inclined to believe that the
change is due to variation in some
form of electrical energy."

SURPRISED NEW YORK.
COLDEST SEPTEMBER 22 KNOWN.
(BY DIRECT WIRE TO THE TIMES.)
NEW YORK, Sept. 22.—[Exclusive
Dispatch.] A surprise greeted the
New Yorker today when he first looked
out of doors. There was a sharpness
in the air that pinched his nose and
no wonder, for today's temperature
was some 23 deg. below the average
for any day in the last twenty-five
years. It was the coldest September
22 since the weather bureau was or-
ganized here. Two inches of snow fell
in the Adirondacks.

The cold wave covered the entire
northeastern part of the country, reach-
ing as far west as Wisconsin and south-
ward to Maryland. Killing frosts
were reported from the entire district,
Upper New York and New England be-
ing the worst sufferers. Thousands of
dollars' worth of uncut tobacco was
ruined in Pennsylvania by the temper-
ature dropping only a fraction of a de-
gree below the freezing point.

CHILLY BOSTON CHILLED.
(BY THE ASSOCIATED PRESS—A.M.)
BOSTON (Mass.) Sept. 22.—A chill-
ing north wind today sent the mercury
down to 35 the lowest point recorded
in September since the Weather Bu-
reau was opened here, in 1871 with any
exception.

At Northfield, Vt., the mercury
dropped to 34, the lowest official tem-
perature reached in New England.
Frost fell all over Connecticut, do-
ing damage to crops to a noticeable
extent.

UNUSUAL NEW YORK COLD.
(BY THE ASSOCIATED PRESS—A.M.)
NEW YORK, Sept. 22.—Unusually
cold weather for the season has been
recorded in the past twenty-four hours
in this city. The lowest official tem-
perature reached in New England.
Frost fell all over Connecticut, do-
ing damage to crops to a noticeable
extent.

Dispatches from different points in
New York and Pennsylvania report
heavy frosts and it is feared that
much damage was done to crops and
fruit.

Feudal Troubles in Kentucky Break

of Marshal Cockrell.

(BY THE ASSOCIATED PRESS—A.M.)
LEXINGTON (Ky.) Sept. 22.—The
hearing of the feudal troubles has been
transferred from Jackson, Breathitt
county, Ky., to this city by the in-
dictment here of William Britton for
killing James Cockrell, town marshal
of Jackson, two years ago. A large
poor, including officers of three coun-
ties, started after Britton during the
night, determined to get him, dead
or alive. William Britton was ar-
rested ten miles from Jackson. He
made no attempt to resist arrest.

POSSE TO THE RESCUE.
(BY THE ASSOCIATED PRESS—A.M.)
JACKSON (Ky.) Sept. 22.—A posse of
Britton's friends have left Jackson to
rescue Britton, and if possible, keep
him in Breathitt county.

Ministers, Doctors and Temperance Workers
Use and Recommend Duff's Pure Malt Whiskey as the Only Effective Cure for Lung, Stomach and Nervous Diseases.
"I THANK GOD THERE IS SUCH A MEDICINE," WRITES REV. DR. McLEOD, an active minister for 30 years. "For more than 10 years I have been afflicted with dyspepsia and nervous prostration. At times I was so run down I could not attend to my ministerial duties. Could neither eat nor sleep. I began taking Duff's Pure Malt Whiskey. It gave me strength, helped my digestion, settled my nerves, and I gained 10 pounds in one month. I recommend those who are weak, broken down, nervous, take Duff's." Greenleaf, Mich., January 22, 1904.
"DR. BOWNE PRESCRIBED 'DUFFY'S' 25 YEARS. I have found that in pneumonia, grip and other exhausting diseases my patients never fail to respond favorably to Duff's Pure Malt Whiskey. Taken as directed it is found to relieve and permanently cure consumption." Dr. E. H. Bowne, Kingston, N. J., August 1, 1904.
"MR. THOMAS MORAN, TEMPERANCE WORKER, SAYS: 'I have lived in Rochester, N. Y., for almost 70 years and people know I am a strict temperance man, but I unhesitatingly recommend Duff's Pure Malt Whiskey for the great good it did me during my illness. Two months ago I was so weak from bronchitis I could not raise my head. I had a low fever and all the symptoms of a relapse. The doctor ordered my whiskey, and I would not be living today but for its use. It made me strong, vigorous, better than I have been in years.' July 28, 1904."
"For many years I have been prominent in the affairs of the nation because of my use of Duff's Pure Malt Whiskey. It has been used by me in the treatment of the most serious cases of disease. The opinions of a few of these are published in a booklet which we mail anyone free on request."
The unrivaled record of this splendid medicine is over 4,000,000 cures. More than 200 doctors use it in their homes and prescribe it regularly in their practice, and it is used exclusively in over 2000 hospitals. It is an absolutely pure distillation of malt, scientifically combined with medicinal ingredients of highest quality. It acts directly upon the diseased organs and parts in a natural manner, and strengthens and builds up the entire system. It contains no fuel oil. Every testimonial is published in good faith and guaranteed.

Animal Stories for the Little Ones.

THE LAZY GOOSE.
Why He Took Exception to a Health
Resort.
CONTRIBUTED TO THE TIMES.
ONCE upon a time there was a wild
goose, who was lazy; he did not
like to fly the great distances wild
geese have to fly; he did not like to
live on his own food. One day he
went to a barnyard, and began
sneaking to the lame geese there.
"This appears to be a tidy little town,"
he said. "I have seen larger ones, to be
sure, but with prompter service, but a
number of my experience learns to
enjoy many shortcomings. So the
lame geese give you all you want to eat,
don't they? And you have nothing in
the world to do. Well, my doctor has
told me to take the rest cure; this
kind of travel is wearing me to feath-
ers and bones. I'll stay here as long
as the climate seems to agree with
me."

As he ate greedily of all that was
served for the fowls to eat, his doc-
tor had ordered a plentiful diet for
him, he said. He became quite a hero,
telling the tame birds of his adven-
tures and the strange countries he had
seen.

By and by came Betty, the maid,
with her head tied up and a great ap-
pearer her dress. "What is she com-
ing to do?" asked the wild goose, as
she came to the door and asked for
the other geese feed, shrilling from
behind her.

"She is going to pluck our feathers
to stuff pillows and beds for her
master to sleep on," an old gander
warned him.

"Is that so?" replied the wild goose.
"That would never agree with my con-
stitution in the world. I shall really
be unable to recommend your little
town as a health resort, if that is
the object of the treatment." And he spread
his wings and flew away to join
the wild brothers.

The Pige and the Buttermilk.
There was once an old pig who had
three young ones. Every day when
the farmer's wife got a jug of butter-
milk, she told her children to take
the milk and keep it barred—while she
was gone.

When I came back I will pour a lit-
tle of the buttermilk under the door
and you may know me by that,"
she said. "Don't open the door, for
my wife's sake till you see the butter-
milk under the door."

One day when the old pig was gone,
the three young ones were alone.

**The Moose Who Tried to Please Every-
body.**
There was once a young moose who
was brought up far away from his
kind. "When his horns began to sprout
he went about among all his playmates,
asking them what they thought of the
new venture. The bear told him that
it was perfectly ridiculous to have
hard things growing out of your fore-
head that way. "I've never had any-
thing of the sort," said Bruin, "and
look at me—I am the king of the for-
est."

By and by the horns began to show
big, scopy surfaces, different from
anything the moose had ever seen, be-
cause, you know, he was brought up
away from other moose. He asked the
deer what they thought about such
horns as his, and they told him it was
a great mistake; his horns should come
in prongs like theirs; they advised him
to get some one to break them apart or
file them down.

"Gump!" said Old Lady Moose.
"Your horns are made thus so as to
scrap off the snow, that you may graze
in the winter." When he came a little
later and wanted his horns taken off
quietly, because some of the creatures
thought them too big, she told him: "He
was going to take him to the moose
gazing ground in the spring, and
then he would find what his horns were
for."

When they went to the moose graz-

The Fate of Squeaky Mouse.
Mother Mouse had two little daugh-
ters, Meeky and Squeaky. Meeky was
a good little mouse, and did everything
her mother told her. Squeaky was very
wild and daring, but she was the tor-
ment of everybody's life.

One day Mother Mouse was too ill to
go out and do her own marketing, so
she left you children to go and get
me a little lump of cheese," she
moaned.

Away scampered the two little mice
to a high shelf they knew of; their
mother had warned them of traps and
cats, so they were careful not to lin-
ger on the pantry floor. When they
found the cheese, Meeky began at once
rolling up a little lump to take home
to her mother, but Squeaky filled her
mouth as full as it would hold and ran
up and down the shelf, making a great
clatter.

"Be careful," said her sister. "The
cat will hear you."

Squeaky looked down and saw the
cat on the pantry shelf; she knew it
could not get up to her, and she could
not resist calling "Peek-a-bo!"

"Dear me but the cat glared!" "Oh!"

A Study in Realism.
Sculptor Federico Honneilleu has
sent to the authorities of Lagos, Ja-
lico, the plans, sketches and specifi-
cations for the projected monument to
Gen. Pedro Moreno, which will be con-
structed at Lagos, the native town of
the general.

The project of the sculptor has
caused a great deal of discussion in
Lagos. It is agreed that the artist
has faithfully kept the historical tra-
dition relative to Gen. Moreno. The
artist has proposed to represent him
in underclothes and in a fighting atti-
tude, taking his idea from the histori-
cal fact that one night his troops were
unexpectedly attacked by the Span-
iards, and he promptly left his bed,
having no time to put on his uniform,
and in that strange attire he directed
the fight, which culminated in tri-
umph.—[Mexican Herald.]

Bargain-Friday No. 250

If You Haven't the Bargain-Friday Habit 'Twill Pay You to Acquire It

Nearly five years ago we began setting Friday aside as a special day for the disposal of short lines and remnants. Shrewd women soon discovered that they could confine a large portion of their shopping to Bargain Friday and increase their savings thereby. In fact, with a large portion of our trade Bargain-Friday shopping has become a habit, and if you're inclined to be thrifty and economical you can make money by acquiring the habit. The fact of our having successfully conducted 249 Bargain-Friday sales prior to this one, is evidence that there is something behind these sales aside from the name. The very best things offered for Friday's selling are given no newspaper publicity—the reason being that in many instances the lines are too short to advertise. The best plums fall to the early morning shoppers, so the earlier you come the better; but if you must come later in the day you'll find underpriced merchandise on every hand—some lines at cost and some even below cost. The accompanying list is only a few of the many good things to be had on Bargain-Friday.

UNHOLY WAR STIRS CHURCH.

Three Long Beach Baptist
Pillars Suspended.

Pastor Asked by Official
Board to Resign.

Charges and Counter-charges
Most Perplexing.

A venerable, gray-haired "father in
Israel"—an octogenarian who has
spent an ordinary life-time in the ser-
vice of the ministry—suspended from
Christian fellowship with his brethren.

The Three Suspended Members: At the
Top John Sparks; Left, C. F. Patterson
and F. B. Ives.

and broken-hearted over what he and
his friends term a public insult by his
pastor.

Another patriarch in the household
of faith, almost 70 years of age—a vet-
eran of the Civil War, and one who
has marched as a soldier of the cross
for more than half a century, and who
has most liberally helped bear the
burden of the church's sustenance for
30, these many years—shut out from
the privileges of brotherhood with his
chosen denomination.

And another man—one in the very
prime of life—a pillar in the church,
zealous in good works and active in
contributing to the cause of religion—
publicly rebuked and ordered to "re-
pent" and confess his sins.

A pastor asked by his official board
to tender his resignation, and then his
resignation being refused by a vote of the
congregation.

Such are the conditions in the First
Baptist Church at Long Beach; and
these facts have given the church peo-
ple in the little city by the sea a nine-
days' wonder and have set them by
their ears a gossiping. Evidently the
muddle has by no means reached its
end.

COMPLEXITY OF TROUBLE.

The troubles in the Long Beach
Baptist Church date back two years or
more, and there are charges and
counter-charges, until one's mind be-
comes weary trying to grasp the
wherefore of it all.

"The minister is a dictator who ig-
nores his official brethren, and who has
not kept his pledges to his people. He
has tried to thrust upon us a church-
building scheme whereby we would be
involved in a heavy debt, when he
pledged himself to the plan of not
starting a building until the money
was in sight," is the complaint of C. F.
Patterson, long a pillar in the Long
Beach Church, and heretofore one of
its most liberal supporters.

"I have lost all confidence in Mr.
Norton as a man and as a minister, and
his treatment of those who do not
agree with him is un-Christian and
shameful." This is the expression of
Dr. F. B. Ives, the aged minister who
has been such a staunch supporter of
the church in Long Beach until the
present troubles broke forth.

"I may be mistaken, but I think you
are an unfair, foxy and artful man,
and the more I see of you the less I
like your ways. You don't seem to
wear well; some of the men who have
known you longest here think the
least of you, and I believe they are
true and honorable men." This is the
statement of John Sparks, one of the
church officers, in a letter to the pas-
tor, asking him to resign.

"The trouble in our church has been
caused by a very few men who have
been determined to have their way
about everything, and who have felt
that their wishes should override those
of the majority of the church mem-
bers. The church is in a most pros-
perous condition, and we shall go right
ahead with our plans for building." This
is the statement of the pastor, Rev.
Frank L. Norton.

"The men whom the church has dis-
ciplined are of the rule or ruin stripe,
and they have embarrassed Brother
Norton in his ministry for the past
two years," declares Deaconess Alice
Wallwork, who has done much to help
build up the Baptist Church to its
present proportions.

THREE BROTHERS HIT.

And a business session of the church
members—which the "disciplined" men
was simply a packed meeting—has
put on record and forwarded to these
men the following:

"LONG BEACH, Cal., Sept. 19, 1904.

"Dear Brother: At a special meeting
held on September 18 in the First
Baptist Church of Long Beach, Cal.,
after Sunday morning service, the
pastor, Brother Frank L. Norton,
presented his resignation to the
church and after due deliberation the
church voted not to accept the resig-
nation, by unanimous vote. The
church also expressed itself well
pleased with the way the pastor had
labored for the advancement of Christ's
kingdom in this place.

"The following resolution was
adopted as read: Resolved that in the
spirit of doing justly, loving mercy,
seeking after God, we do as a church
regret, disavow and repudiate the spirit,
the purpose and the methods of these
three brethren, namely:

"Brothers F. B. Ives, C. F. Patter-
son, John Sparks as openly manifested,
these three months more or less and do
place them under charges, as follows
until such time as they repent, find
forgiveness with God and renew cove-
nant with the church.

"Charges: Violation of covenant
obligations in that they have each ab-
sented themselves from the regular
services of the church, have refused its
financial support and have sought by
unkind and un-Christian methods to
break up the pastoral relations, know-
ingly threatening the disruption and
dismembering of the church."

ROW ABOUT BUILDING.

Three years ago the Long Beach Bat-
tist Church called to its ministry Rev.
Frank L. Norton, a young man of
pleasing manner and good pulpit pre-
sence. For the first year there was ap-
parent harmony, and with the general

growth of Long Beach the church grew
and prospered. Finally it became evi-
dent that a larger and more modern
house of worship was needed, and the
members began to discuss it.

It is claimed by several prominent
members that the pastor pledged him-
self definitely to the plan of having
the cash in hand before a building was
begun, and some of the largest con-
tributors to the building fund pledged
their support only on the condition that
the church be erected without incurring
a debt.

Subscription papers were circulated,
and about \$6000 was pledged for the
proposed enterprise. Then, it is said,
the pastor attempted to rush the church
into building, and had plans prepared
at a cost of \$225 for a building, on
which estimates ran from \$12,000 to \$18-
000. This was the beginning of the dis-
satisfaction which has resulted in a
first-class church row.

Of course, when the fight opened
various other things cropped out besides
the building proposition, until now
there are bitter charges made on both
sides, and the church interests are a
matter of public gossip.

ON THE PASTOR'S SIDE.

"These five or six men who have at-
tempted to drive out the pastor do not
have over twenty-five members of the
church with them," declared a staunch
supporter of Pastor Norton in his dif-
ficulties.

"There are at least 100 members of
the church who sustain us in the stand
we take against Mr. Norton," says one
of the leaders of the opposition, "and
this snap-judgment game played in get-
ting the church to decline to receive
Norton's resignation will by no means
heal over the troubles which have been
brewing so long."

It is said that at a meeting of six of
the deacons of the church and two of
its trustees, held on Friday before the
meeting of the congregation, Mr. Nor-
ton was asked to tender his resig-
nation to take effect the first day of No-
vember. On the Sunday following
many members of the church who were
opposed to the minister, went over to
San Pedro to help in the services at the
dedication of a Baptist chapel, and they
claim that when the pastor discovered
that he had a clear field he took advan-
tage of the occasion to have the year's
work presented, and as a climax he pre-
sented his resignation, believing that
after a parade of the statistics of the
year the congregation would vote not
to accept his resignation, and this plan
was carried out.

On the other hand, Mr. Norton's
friends declare that more than two-
thirds of the membership was present,
and that there were only eight votes
against the minister.

NOT YET REPENTANT.

The next business meeting of the
church will be October 5, and it is ex-
pected that at this time a date will be
set for a hearing of a statement from the
brethren who have been "disci-
plined." If by that time they have not
repented," they will doubtless be cast
out into outer darkness by the First
Baptist Church. At present the men
under censure do not seem to be filled
with a particularly repentant spirit.

One of the results of the controversy
was made apparent last night, when
three of the congregation, who have
carried its financial burdens in earlier
years, when there were scarcely any
others able to lend helping hands, it
is believed the case will attract more
than local attention.

LOCAL POLITICS.

MAYOR THINKS HE'S STILL "IT."

SAYS THE NOMINATION WILL
COME EASILY.

Pronounces the World's Fair Pike
Not so Bad as it is Said to be.
Democratic Mayorality Candidates
Come Out from Cover — Dark
Horses Barred.

Fresh from the haunts of the Igno-
rantes, with the dust of the Pike not yet
eliminated from his pink side-whiskers,
the Mayor yesterday morning swept
into the City Hall and gave fresh im-
petus to the wheels of the city ma-
chinery, which had been slightly
clogged through the illness of Acting-
Mayor Bowen.

Some one said it was a yawning gulf
in the local Democratic forum that
brought the Mayor back. If that were
true the gulf is closed, for the Mayor
leaped into the chasm without turning
a hair, and came up smiling.

"It is the same old split that I had
to close up when I was first a candi-
date," said the Mayor. Then he
switched to his trip: "I would rather
work in the gutter in Los Angeles than
be the Mayor of St. Louis."

Rumor has it the Mayor came back
to push Councilman Kern and Parish
for poaching in his political preserves.
This the Mayor would neither affirm
nor deny. But a light wave of the may-
or's smile showed clearly that the
Snyder hammer, at least had not lost
its velvet sheath.

The reporter was desirous of getting
something new about the political sit-
uation, but the Mayor pretended to be
more concerned with the great ex-
position and the weather.

The exposition was fine but the
Pike has been unduly exploited, said
he. It isn't as naughty as was the
Midway at the Chicago fair and to me
it was rather uninteresting. I would
have enjoyed the trip better had I not
been so homesick. It was my first trip
East since 1894, but I was never so
homesick to get back to any place, ex-
cept during my first month away from
home."

Again some one suggested that the
Mayor came back because the coils
had broken out of the pasture, but he
was coy. "I have heard that there are
a number of aspirants to the office of
Mayor," he said. "Well, I suppose it
is only natural that there should be.
All that I have to say is 'may the best
man win.'"

Then he unlimbered to add as a
codicil, "but I think the nomination
will come easier than ever before."

The interviewer here volunteered the
information that during the Mayor's
absence Acting-Mayor Bowen had
named a Playground Commission.

The Mayor was all smiles. "Well,"
he queried, not in the least perturbed.
"That's all right. It is."

"I never go back of the returns,"
came the placid reassurance. I do not
doubt that the commissioners named
are competent to perform their duty.

And then he smiled again in a way
that showed that the Snyder smile is
being trained to play prominent part
in the Democratic campaign.

The Mayor spent the remainder of
the morning and most of the after-
noon receiving callers who had real
or fancied business with the city's
Chief Executive. But during all this
time politicians were barred. If a
heeler slipped in on some other pre-
text and started to talk politics he was
politely shown the door. "No politics
until after 4 o'clock," was the edict of
him who in politics must be obeyed at
the City Hall.

Out in the anteroom Tom Savage of
"De Ate" entertained the chair warm-
ers with picturesque character sketches
of the candidates. "It's me and the
Mayor north of First street," said
Savage. "And that's all there is to it.
When we are through there won't be
no more."

"Me and Pinky kin bring in a solid
delegation. We don't make two bites
out of one here. Parish is a nice
young man, but his friends have got
him in wrong. This is straight dope
me giving you and you can bank your
money on it. It's Savage for the Coun-
cil and Pinky for Mayor. Why the
children say that down our way. They
think it is a part of the children."

But while Savage was giving out the
dope in the City Hall "El Hutch" was
making a saloon-to-saloon canvass
down in Todd's ballwalk for Kern. "El
Hutch" now claims to be the original
recall man. He is but one of a com-
bination of anti-Snyder Democrats
who are outspoken in their preference
for Kern. Joe Simons is the foremost
figure in this combine. With him are
associated W. M. Conkling and Martin
Betkouski. This coterie has consider-
able following in the Sixth and Seventh
wards but they are bucking the regu-
lar Democratic organization.

The knowing ones have passed the
word down the line that as goes the
Royal Arch so goes the nomination—
and the Royal Arch has not yet
spoken.

Snyder's friends have already dug
up their hatchets and are using them
on the opposition leaders. Here is the
story which they use to explain why
one ward boss, is opposed to Snyder:

"In a former campaign the 'Boss' was
prominently mentioned for Chairman
of the Democratic City Central Com-
mittee. He went to the Mayor for a
recommendation. 'I can't stand for you,'
said the Mayor. 'I think we ought to
use the funds in the campaign.' And
Snyder and this boss have fought each
other ever since."

THE CITY IN BRIEF.

NEWS AND BUSINESS.

Pioneer Realty Man.

A. S. Robbins, who died at his home at No. 222 Figueroa street Wednesday evening, aged 76, was a pioneer real estate man of this city. He came to Los Angeles about thirty years ago. He was president of the Bible West Mining Company.

An Exchange.

Through the agency of L. M. Pratt, John Glio Barara has acquired from R. J. Dyas a fine eleven-room residence at No. 1132 West Twenty-eighth street, with lot, 120x146; consideration, \$15,000. Mr. Dyas takes as part payment St. Louis property worth \$11,500.

Baptist Social.

This evening Temple B.Y.P.U. Society will give a reception in their church parlors to the Baptist young people of this city. There will be an interesting program and refreshments. Guests of honor will be the returned delegates to the national convention at Detroit, Mich.

Large Child Study Attendance.

The Twentieth-street Child Study Circle had an attendance of forty-five at its meeting. Mrs. H. E. Sison was elected president. Mrs. J. F. McCormick, vice-president; Mrs. W. D. Noble, secretary, and Mrs. Forsythe, treasurer. Prof. Yoder gave a talk, ten pupils sang, and the secretary read.

Berschig Is Found.

George Berschig, the elderly man who left this city Saturday to visit his son in Hanford, and who was reported missing, has been found in Bakersfield. His daughter in Los Angeles received a message yesterday from her brother saying that the father had left Bakersfield for Hanford.

Maccabees to Elect.

Pursuant to orders from the Major-General, the Twelfth Regiment, U.S.A., R.O.T.M., will hold an election on Thursday evening, October 13, at regimental headquarters in the Douglas building, for colonel and lieutenant colonel of the Twelfth Regiment, vice Col. J. L. Jones and Lieut.-Col. B. U. Tiley, terms expiring.

Accused of Stealing Watch.

Thomas Smith, a young militiaman who was in the camp at Atascadero recently, was arrested yesterday charged with the theft of a gold watch from Patrolman Lehnhausen, who was also at Atascadero. Smith was locked up and the watch has been recovered. Detectives say they have conclusive evidence against Smith, but he denies guilt.

Japanese's Skull Fractured.

M. Suyeama, a Japanese, 17 years old, is at the Receiving Hospital with a fractured skull, caused by a fall from a Washington-street car last night. Mystery surrounds the accident—if it was for officials of the Los Angeles Railway Company would not tell how Suyeama was injured. The boy was brought to Second and Spring streets on a Washington-street car. The skull showed a fracture near the base of the brain, as if caused by a blow or fall. Physicians consider the injuries fatal.

Autos Crash and Smash.

W. M. Garland's Winton touring car was run into and much damaged by another automobile at Sixteenth street and Grand avenue yesterday afternoon. Both machines had been in the 54th parade and were loaded with people on their way to the 54th grounds. While running at a high rate of speed, the Garland machine crossed in front of one following, was run down and struck in the rear wheel. The whole machine was shoved around in such a way that one of the rear wheels was crushed, and the other was badly sprung. There were nine persons in the mix-up, but nobody was hurt.

Garvansa Protesting.

Garvansa rose on a mass against gas and smelters last night, and the indignation meeting long planned came off at the College of Fine Arts. R. A. Donnell presided, with George S. Gault as acting secretary. The gathering—which was a large one—unanimously protested against gas and smelter nuisance in the Arroyo Seco specifically condemning the Lowe invasion. W. E. Partridge, manufacturer, made a vigorous speech which met with hearty applause. Others whose views coincided with the general protest were Prof. William Judson, Mrs. K. Tupper Galpin, George W. Wilson and Mrs. Creighton.

To Act or Not to Act.

To act or not to act, that is the question which is to be decided in the unique contest at 2:30 o'clock in the Burbank Theater stage this afternoon. Forty-three young women, eager to become individual members of the Marrocco company, will be given three-minute trials before the five dramatic critics of the local newspapers, and the one selected will become a permanent member of the aggregation. George A. Robinson will act as judge. Applications of all sorts have been received at the playhouse, some of them very funny indeed. The contestants are gathered in from all points around the city, and one, Miss Agnes Clayton, came from Sacramento late last night. Miss Clayton is a young High School girl who is ambitious for the stage.

False Alarm for Minister.

Rev. J. Horace Mallows, pastor of the Plymouth Congregational Church, was evidently the victim of a practical joke last night. About 10 o'clock his telephone rang furiously, like the hurry-up call at the Police Station. Taking down the receiver, he was greeted with "Is this Rev. Mallows?" Yes, well, will you please be at the Imperial Cafe in thirty minutes. I want to get married. I have the license, and we are waiting. The name? Oh, you will know me when you see me. I hate to trouble you this time of night, but will you come? Rev. Mr. Mallows said he would. Hastily tucking his prayer book under his arm, the good gentleman ran for the car and was at the Imperial Cafe twenty minutes later. A careful search of the place by Manager Milling, the minister and the head waiter failed to reveal a couple who wanted to be married. Rev. Mr. Mallows waited patiently for an hour in vain.

Kranich & Bach Pianos

From The MUSICAL COURIER TRADE EXTRA March 26th, 1904.

The small grand piano of Kranich & Bach has created a genuine sensation wherever and whenever heard, and justifies the determination of the firm to make a large number of these superb instruments this year. I would suggest to everyone interested in music to investigate these small grands, which should be called grand small pianos or great small pianos. They are artistic stimulants, and to play them means to linger with them, for no pianist can get away from them after once getting started with his play. The touch is exquisite, and is the means of evoking a remarkable tone family.

If You Can Afford \$1.00 Then Own a ...PIANO

Could you not easily put aside \$1.00 per week?

We sell new upright pianos on payments as low as that.

Buying a piano on such extraordinary terms is like putting money in a savings bank, except that there is this additional advantage—you have the constant pleasure of using the instrument.

There need not be one home in the city without this refining influence. There are many hundreds of families who could not have conveniently afforded a piano until we added this department to our business.

We have a very large variety of standard instruments—instruments which have been pronounced superior by many of the world's greatest musicians. Our prices are far lower than you must pay at a regular piano store and our terms are infinitely more convenient.

SUCCESS ATTENDS THE BARLOW FETE.

Society Men and Women Reap a Rich Harvest of Gold from Gay Fairyland for the Benefit of Poor Consumptives.

SUCCESS untold crowned the Barlow Sanatorium lawn fete last night, held in the spacious grounds of the Slauson-Oxnard-Barlow residences, Nos. 2317 to 2345 South Figueroa street. More than \$5000—practically net—was the handsome proceeds for the day. This money, and whatever additional shall be realized, will go to the finishing, equipping and maintaining of the Barlow Sanatorium for indigent consumptives, in Elysian Park.

So great was the success of the fete that the management has decided to reopen the grounds at 8 o'clock this (Friday) evening, when all of last night's attractions, including vaudeville performances, will be reproduced. The grounds will not be open to the public at any hour during the day.

Said the Lady Moon last night, tucking a troublesome tress of cloud behind her ear: "There is the charmingest bit of Earth-scene I've looked down upon in all my wanderings through the sky."

Her ladyship was right. A garden's very heart it was, this wonderful Barlow lawn fete, with fair faces for postures and a thousand many-colored

becoming a part of the enchantment of their surroundings. Six quaint "steel-engraving ladies" are the hostesses, and their smiles make the coffee that is sipped the very nectar of the Gods—one could not keep from wishing the hop-skirts and all that fascinating Barbara Fritchelle gear might come back once again. The darky mummy is there, too, in all her glory of bright kechief and bandana and with the very masterful air that some of us remember from the days long ago.

The wondrous costumes of these Southern ladies were faithful reproductions of old fashions, which our mothers copied from Godly's Ladies Book in the early 'sixties. Mrs. Hollerhoff's gown was of poudour silk, voluminous and imposing, with close silk bodice and real lace tucker above. Wound over her arms was a black chintilly lace scarf, and she proudly wore the miniature of her Virginia grandfather of handsome face and high-up "choker."

Mrs. Dan Murphy's costume was of pink and green silk, with green girde, and she wore white mittens and cabbage roses under the brim of her bonnet. Mrs. Carlos Jones, with parted hair and coquettish curls, black velvet bracelets, stomacher, chintilly "lace shawl" and magnificent brooch and "ear drops" of topaz, played the hostess royally; and Mrs. Burton Green, of fetching garb and manner, Mrs. Roland Bishop with magnificent heliomas of lace about her shoulders and bonnet, and beautiful Miss Huston Bishop, completed one of the most winning attractions of the fete for sweet charity.

Summer P. Hunt designed the colonial mansion for this booth. "This way to the 'Midway' for kids and grown-ups," ushered one into the midst of a variety of attractions, all designed to attract money from the pockets of parents and guardians who flocked to the scene with eager nites whose eyes beamed for the mad, merry round of pleasure that awaited them. "Look out!" Here comes dashing up the way a marvelous team of goats,

FOLDING BED SNAPS DOWN.

Young Woman Nearly Killed by Odd Accident.

Top of the Thing Drops on Sleeper's Neck.

Slender Girl Manages to Escape Injury.

An unchivalrous folding bed fell upon Miss Clara Galway in her boudoir at No. 401 West Temple street yesterday morning, and nearly killed her in its embrace.

Another and slenderer young lady was sleeping with Miss Galway, and she was unhurt, while the bed rested upon Miss Galway's neck.

No explanation has been made to definitely account for the action of the bed. The young lady who slept with Miss Galway says she remembers sleepily stretching herself in the early morning. Then the bed snapped down, with a bang.

The accident happened in the very early morning, before any one of the lodging-house was up. There came a sudden terrible thud and a woman's scream. Recently there had been a fire in the house, and the inmates were roused with instant terror.

antennae and gay incandescents glowing like luminous flies in a dim forest of delight.

From the echoing sidewalk of a quiet street, one step to fairyland! Under a flashing arch, one pace from the commonplace into an Arabian Nights' dream, where rose-crowned porticoes rear their white columns in stately grace, guarding like peaceful sentinels fair dames and beauteous maids in flowered gowns come down from bygone days; where music throbs and v-lvet lawns are pressed by rhythmic feet; where children romp, and laughing lovers slip away thro' parted boughs to barters swift caress beyond the throng; where, 'neath a screening tree, walled in with curtains gay, the giddy wheel of fortune slowly turns, while gracious woman takes the gamblers' toll and, smiling, points the prize—ah! here is fairyland.

Have you the price? Then, come! Dimes, quarters, dollars, gold pieces! fling them hither and yon with generous hand—you may be bribing Death. These merry girls, dressed like masquers for a mad revel, are wearing their spangled gowns that some other nameless one may not wear a shroud; those bandmen, bombastic and bizarre, are piping their ragtime tunes to stay a funeral dirge; these five droll marionettes—society's favorite, each—are kicking up their bantam heels for something more than fun; pay well, you people, and if it please you forget to take the change—heart beats your gold will buy!

"How jolly those people are," smiled the Lady Moon, dodging a ragged cloud; "they must be doing good."

STRAYING ABOUT.

Straying a bit from the crowded pathway, where people "of all nations" are crowding and chattering, you suddenly stop and catch your breath: what is this stately facade that rises before you, conjured up in a night like Aladdin's palace? White columns gleam from out the tropical luxuriance of a southern climbing rose, upon which a thousand pink flowers are blushing and coquetting. It is a bit of the old drawing a bright wagon filled with tiny, wide-eyed, dimpled youngsters, clutching fearfully the sides of the equipage, for the driver, little Eugene Bryant, is like "John the son of Nimshi," and drives furiously but with not a single accident to mar the joyful sport. The goat outfit has a rival: two rivals, in fact, for two fascinating green boat and fishing for mysterious bundles. Mrs. Fred Griffith and Mrs. Ed Silent were the two fisher maidens who saw to fair play, and who added more entrancing bundles to be singled for when the supply threatened to give out. There were tall cat-tails and bamboo inclosing this fascinating pond, and the fishing was rare sport indeed.

CHICKS THAT CLIMB WALLS.

Prof. Hummel, the world-renowned ventriloquist, "and the wall-climbing chickens" were announced by George J. Common of startling get-up. High silk hat and cane had he, and diamonds, or rocks, that would put the Kohinoor to blush.

Inside the tent were the marionettes, "Jonny" the black and "Jim" or sorrel top, who said sassy things that convulsed the audience. The wall-climbing chicks were little downy ones that didn't climb walls at all, but were surrounded by mirrors in such a manner that confiding innocents are still clamoring to buy these abnormal fowls.

Out into the Midway again, and here is pretty Emmaline Childs, bartering

Miss Galway's companion came running out into the hall in a panic of fright. She begged some one to come to the room.

One of the men in the house ran into the room. He found Miss Galway lying unconscious on the floor. The high folding bed had in some way become overbalanced. The top of it fell over upon the bed part by the giving way of the legs.

The heavy bed top had struck Miss Galway across the back of the head and base of her neck.

She did not recover consciousness and a physician was summoned. She was then taken to the California Hospital. Last night she was reported as resting easily.

The other girl was not hurt. She is so much smaller than Miss Galway that she was not struck. The neck of her companion acted as a prop to protect her from the bed. She easily wriggled out from the heap of clothes enveloping Miss Galway and rushed after help.

At the lodging-house where the accident happened an effort was made to keep the affair "quiet."

CITY CHARTER NOW OUTGROWN.

LONG BEACH DEMANDS GREATER MUNICIPAL POWERS.

Has Become More Than City of Sixth Class and is Hampered by Restrictions—Movement Begun to Remedy the Matter—Residence Destroyed—No Trace of Kratz.

LONG BEACH, Sept. 22.—Petitions to the City Trustees asking that elections be called to vote upon measures for the improvement of the city and future of Long Beach appear to be the rage. The recent demands for a sixth-class charter, two years ago a majority of citizens and tax payers petitioned for a vote on special charter, but were turned down for reasons that seemed good at that time.

The growth of the city and increased expenditures necessary make it evident that a change is needed in the form of local government and needed in the form of local government and needed in the form of local government.

The city has outgrown its present municipal powers under the general law, and it is imperative that greater powers be conferred upon the governing board in order to take care of the growing interests of Long Beach. It is probable the Council will take immediate action and order an election to be held at once to avoid any delay, so that the Legislature may be on the charter at the coming session.

RESIDENCE BURNED.

The home belonging to Mrs. Edith Robins at No. 214 Linden street, was destroyed by fire with all its contents at 7 o'clock this morning. When Mrs. Robins awoke she started a fire in a drum stove, which became red hot and set fire to a pile of papers. Mrs. Robins gave the alarm, but there was delay in getting the hose reel to the house, and the fire spread rapidly, burning the house and the contents of the house.

The loss is \$500, which was covered by insurance. The absence of any wind that prevented a disastrous fire.

BETTER LOOK ELSEWHERE.

Today is the seventh day since the disappearance of Albert M. Kratz, and according to all precedents he should be to the surface between now and Sunday. Special Agent Phillips has offered \$10 reward to any one locating the body, and a sharp lookout will be kept along the beach and around the piers. Much has been said of the folly of Kratz in going into the water.

This was explained by Miss Gifford, who says that she remonstrated with him against going into the surf, and suggested the plan of a life preserver. He replied that it was filled with fresh water and had made him sick when he went in a few days previous, and he would not risk it again.

NOTES OF THE NEWS.

A local lodge of the Modern Brotherhood of America has been organized in Long Beach, with forty-six charter members. Officers were elected as follows: President, W. M. Brown; vice-president, Mrs. J. H. Frederick; secretary, J. H. Frederick; treasurer, Mrs. W. M. Brown; conductor, Mrs. Sadie Haddell; physician, Dr. David Bell; chaplain, Rev. J. F. Thompson; organist, Otis McGinnis; sentry, Osa Pittle.

Roy Haslett, a High School pupil, investigating the basement of the new building, struck a live wire, which he crossed the doorway and was rendered unconscious from the blow. A bad cut was made in his head, requiring several stitches.

SAN PEDRO.

INSPECTED THE BREAKWATER.

SAN PEDRO, Sept. 22.—Senator Thomas R. Barr came to San Pedro this morning to inspect the work now being done by the government on the breakwater. He was accompanied by Capt. C. H. McKinstry of the United States Engineer Corps, who is in charge of the work. The party further consisted of Messrs. Hughes, Burton and Crawford, who are supervising different portions of the undertaking, and E. O. Gerberding, the Senator's secretary.

The party boarded the engineer's launch and made a trip about the inner harbor, after which the breakwater was visited. Capt. PLAYA DEL REY, Sept. 22.—Residents of this section are trying to secure the creation of a new school district, to be known as Playa Del Rey. The proposed district would include all of the strand south of the proposed city limits of Ocean Park, and would also take from the Ballona district quite a strip of land.

The Palms Woodmen and a number of visiting brethren enjoyed a dance in the tent pavilion this evening. The attendance was large.

The Sherman Boat Club will hold a meeting here tomorrow night for the purpose of deciding upon plans for incorporation and the building of an up-to-date boat clubhouse.

CLAREMONT.

POMONA COLLEGE OPENING.

CLAREMONT, Sept. 22.—The formal opening of the college year took place yesterday in the chapel of Holmes Hall. President Gates presided, and there was a large gathering of the general body of students. The president delivered a brief address, welcoming the students and new, commenting in feeling terms on vacancies that death had made, and expressing the hope that the coming session would be one of strenuous work.

Prof. Charles B. Sumner followed with a tribute to the generosity of Miss Esther R. Holmes of Monson, Mass., whose gift, twelve years ago of the building that commemorates her father's name, was enhanced by the additional contribution that has been made, and renovated it throughout, giving to the college a chapel adequate to its needs.

Rev. Dr. Goff of Riverside, in an eloquent speech analyzed the true purpose of an education, showing that it implied the power to investigate, the power to enjoy, the power to be something, the practical talent, and the power to expand the spiritual nature.

Rev. Dr. Kingman, pastor of Claremont, followed with an exhortation that the varied aims of life should be centered around true Christian endeavor, and the proceedings closed with the singing of the college hymn and prayer.

Today and today the enrollment of students has been going on, and the year promises to be a prosperous one. During the vacation there have been several additions to the teaching staff. Two new chairs have been created, philosophy and rhetoric, and according to all precedents he should be to the surface between now and Sunday.
